The letter of authorization shall include the unified business identifier and address of the business, a full description of how the substance will be used, and the signature of the purchaser. Either the seller or the employee of the seller delivering or transferring the poison shall affix his or her signature to the letter as a witness to the signature and identification of the purchaser. The transaction shall be recorded in the poison register as provided in this section. Letters of authorization shall be kept with the poison register and shall be subject to the inspection and preservation requirements contained in RCW [69.38.040](#).
